

***ddRAURA™* FMTS**
(Floor Mounted Tube Stand)
**A DIGITAL RADIOGRAPHY
SYSTEM DESIGNED TO
IMPROVE PATIENT CARE**

Swissray offers the latest in imaging advantages. Always ahead in the field of digital radiography, the complete line of DR systems was developed to focus on image quality and radiation dose reduction to benefit patients. Additionally, each *ddRAura* system greatly reduces workflow issues and streamlines diagnostic imaging procedures to improve overall operations and patient care.

Ideal for orthopedic offices, private practices, and busy imaging centers, the *ddRAura* FMTS is a sophisticated and affordable radiography solution that redefines workflow. Designed by radiologic technologists, for radiologic technologists, the *ddRAura* FMTS includes a manually positioned floor mounted tube stand, a vertical wall bucky stand, and a fixed height or an adjustable high/low patient table with a four-way floating tabletop.

The system, designed for easy positioning with high flexibility and minimum room requirements, can perform a wide range of general and specialized radiographic imaging. The *ddRAura* FMTS also features an advanced 23-inch touchscreen workstation with state-of-the-art software and a wide range of detector configurations and sizes, providing maximum imaging flexibility.

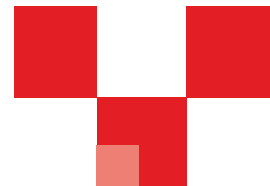

IMPROVE PATIENT CARE GROW YOUR PRACTICE

FEATURES

- Precise and flexible manual positioning
- Tube-mounted 9.7" touchscreen console for view position selection, system positioning, generator control, and image preview
- Image preview in 3 seconds, a full image in 5 seconds
- Intuitive software for ease of use
- Advanced processing algorithms provide outstanding image quality
- Optional Follow-Me feature provides tracking of the table and wall bucky
- Single or multidetector capability
- Wireless and/or fixed detector configuration
- Space efficient – fits into small X-ray rooms

■ **TRAINING AND SUPPORT**

Swissray offers each customer onsite clinical applications support, customization, and training tailored to your practice, staff, and patients' unique needs. Our ARRT licensed Radiologic Technologists, with years of clinical and training experience, will make sure you are maximizing your investment.

■ **CUSTOMER CARE AND SERVICE**

Swissray exclusively specializes in installing, repairing, and maintaining Swissray ddR systems and ensures only the best factory-trained field service engineers service your equipment. It is our priority to deliver the highest caliber service to meet the needs of your practice and patients.

We truly care about our customers and take the time to understand the type of patients they support. When it comes to installing a new DR system, we want to ensure that our customers have exactly what they need to drive efficiencies, improve patient throughput, and ultimately meet their business operational goals. We are committed to their success and provide support services for the life of the system.
