

***ddRAURA™* OTC APS**
**A DIGITAL RADIOGRAPHY
SYSTEM DESIGNED TO
IMPROVE PATIENT CARE**

Swissray offers the latest in imaging advantages. Always ahead in the field of digital radiography, the complete line of DR systems was developed to focus on image quality and radiation dose reduction to benefit patients. Additionally, each *ddRAura* system greatly reduces workflow issues and streamlines diagnostic imaging procedures to improve overall operations and patient care.

Designed by radiologic technologists for radiologic technologists, the *ddRAura* OTC APS is a multifunctional and fully automated X-ray solution developed to run efficiently, ensuring quick and accurate diagnoses even in the most challenging clinical settings.

Featuring Swissray's Automated Positioning System (APS), which automates all positioning and image acquisition requirements, the *ddRAura* OTC APS offers a motorized ceiling suspension, fixed positioning table with elevating base, smart wall stand and an auto-tracking detector with removable grids.

IMPROVE PATIENT CARE GROW YOUR PRACTICE

FEATURES

- Fully automated DR system for high patient throughput
- Ceiling suspension with 5 motors, including Automated Positioning System (APS)
- Automated Positioning System automates all positioning and image acquisition requirements
- Tube-mounted 9.7" touchscreen console for patient registration, system position, generator control, and image view
- Single focus stitching (optional)
- Fully configurable – multiple choices for generator and tube power, table functions, and various numbers of detectors, both fixed and wireless
- Wall stand with tilting functionality to facilitate easier examination for extremities
- Image preview in 3 seconds, a full image in 5 seconds
- Advanced processing algorithms provide outstanding image quality
- Ambient lighting color-coded for system status

■ **TRAINING AND SUPPORT**

Swissray offers each customer onsite clinical applications support, customization, and training tailored to your practice, staff, and patients' unique needs. Our ARRT licensed Radiologic Technologists, with years of clinical and training experience, will make sure you are maximizing your investment.

■ **CUSTOMER CARE AND SERVICE**

Swissray exclusively specializes in installing, repairing, and maintaining Swissray ddR systems and ensures only the best factory-trained field service engineers service your equipment. It is our priority to deliver the highest caliber service to meet the needs of your practice and patients.

With increasing productivity and workflow demands, it is more important than ever for X-ray systems to perform seamlessly to support patient throughput. With the ddRAura OTC APS, radiologic technologists can produce superior images quickly to ensure precise diagnoses and optimal patient care.
